Thanks all for taking care of my crap – I am under the impression that I’m not allowed to fill out my own UPS shipping forms any more like I used to in the old days – if this is incorrect and I can take care of my own crap – just let me know what the billing number is and I will take care of it myself like I used to.

Attached is the UPS labels for Eric’s Crap. If it makes it to UPS by 5:00 the gear bag and case will make it back to KC by 11 AM Monday morning. There is a reference line on the bottom of the labels that indicates which one is for the case and which one is for the gear bag.

Rob,

Please send me the address these will ship from. I can’t produce a label without an address that these will ship from. Or if someone there is setup for UPS they can ship it on our account# WOR377. I’ll give you a call in the morning. I am listing these as;

- 30x14x10@ 75#- gear bag and
- 30x17x11@70# case.

If the dimensions or weights are way off let me know.

Thank You

Joe – please send the shipping paperwork to Rob Neal – cc Derek Ragon as a backup – can’t find scales so I would use my guestimates for the weights – don’t need them delivered until Monday if that helps out.
